

Price Guide

For pricing, we take into account the cake, its frosting (with a choice of fondant or buttercream), complexity of style and design, and the numbers of servings. Each of our cakes is prepared with 2 layers of French Vanilla, Devil Food or Decadent Red Velvet.

All cakes are filled and frosted with buttercream (Choice of flavors: Vanilla Bean, Chocolate Truffle, Cream Cheese, Espresso, or Peanut Butter. *Ganache, chocolate mousse or fruit mousse fillings are available at an additional cost.) We are not limited to the flavors listed.

Decorating will vary according to which icing/frosting is chosen. When choosing rolled fondant, the decorating ideas are limitless. This choice is typically more expensive as a lot of labor goes into creating a perfectly smooth and even canvas for perfect cake decorating options, as well as tinting and coloring. With buttercream, the best choices are fresh flowers, piped borders, or decorative ribbon around each tier. Although buttercream is delicious, it is not often recommended for summer events or weddings, as the buttercream needs to be kept in a cool area to prevent melting.

The size of the cake is the biggest factor that controls the cost in the end. For wedding cakes, 2-tier and 3-tier cakes are pretty standard with finger-sized portions. The larger the cake or the more complex the design, extra measures and time goes into the securing the structure.
